

Can You Add More In The Future?

What began as a serendipitous snap shot became one of my favorite cartoon situations. But as families grow, so does the love - and in our house so do the jokes. This has become a full-blown running gag now.

So when the bunny came along it was time for everyone to shove over and make room...

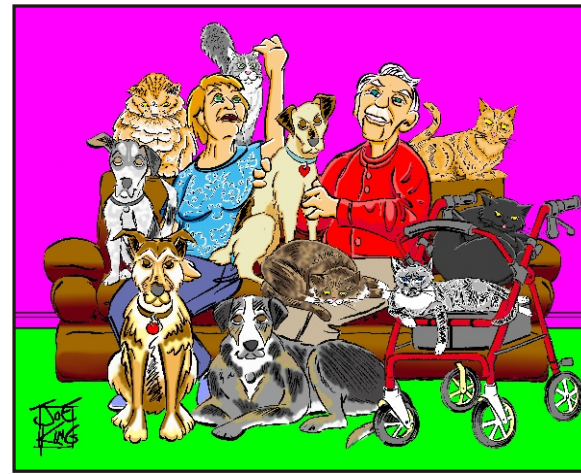

Because of the way I construct my art files there is always room for one more!

I Want To Honor A Cancer Survivor!

Berny Power IS Cancer Man!
Berny's superhuman struggle through round after round of chemo-therapy to find remission was honored by a friend in the form of this surprise commission.

I am both proud and humbled at the same time to be able to help share his story.

What If Our Family Is Really Big?

They asked me to paint Grandma, Grampa, their four dogs, six cats and "Don't forget to include his new red walker!"

I was given a fist-ful of snapshots with this request. All told I crafted more than fourteen separate elements to combine into this final arrangement.

No request is too large or too complex for me to capture on canvas for your family!

Make Us Look Like Our Favorite Cartoon!

When we planned out this ultimate family portrait, another famous family came to mind with their trademark sofa.

It was quite simple to build a custom sofa large enuff for our own composition.
